LWJP2

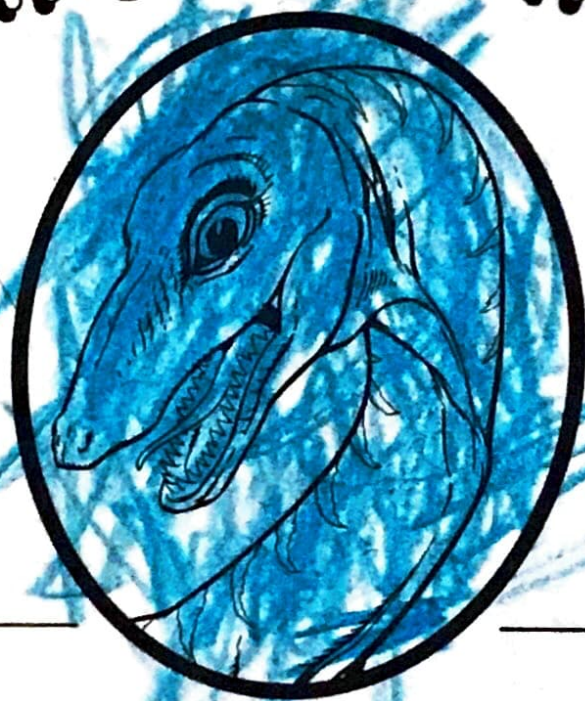

Pachycephalosaur used the bumps around its dome to dig up plants.

Tyrannosaurus Rex lived seventy million years ago.

How Many Words Can You Make Out of

COMPSOGNATHUS?

SONG

TOSS

The Pteranodon was one of the largest of all flying dinosaurs.

CONNECT the Dots

Stegosaurus lived where Colorado is today, 150 million years ago.

Scientists aren't sure if Gallimimus ate plants or animals.

TYRANNOSAURUS REX

Draw the dinosaur using the grid!

Hadrosaurs walked on four legs, but could stand on two with help from their tails.

Scientists think dinosaurs could see colors-not like elephants who are color-blind.

Which baby T-Rex is different?

1.

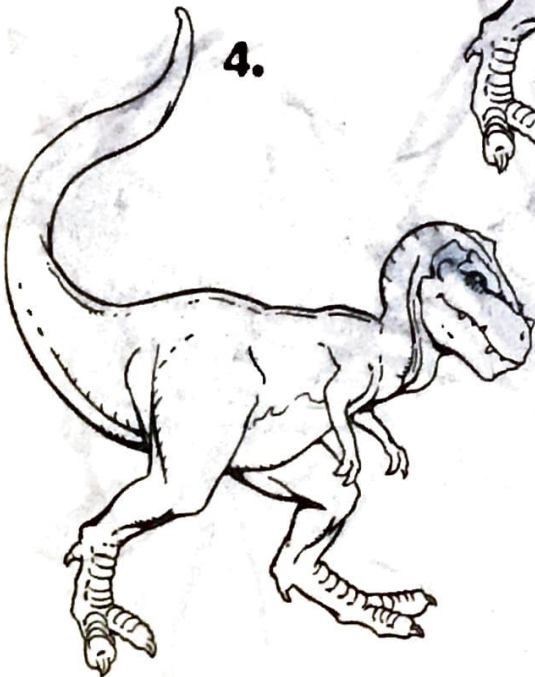

2.

3.

4.

5.

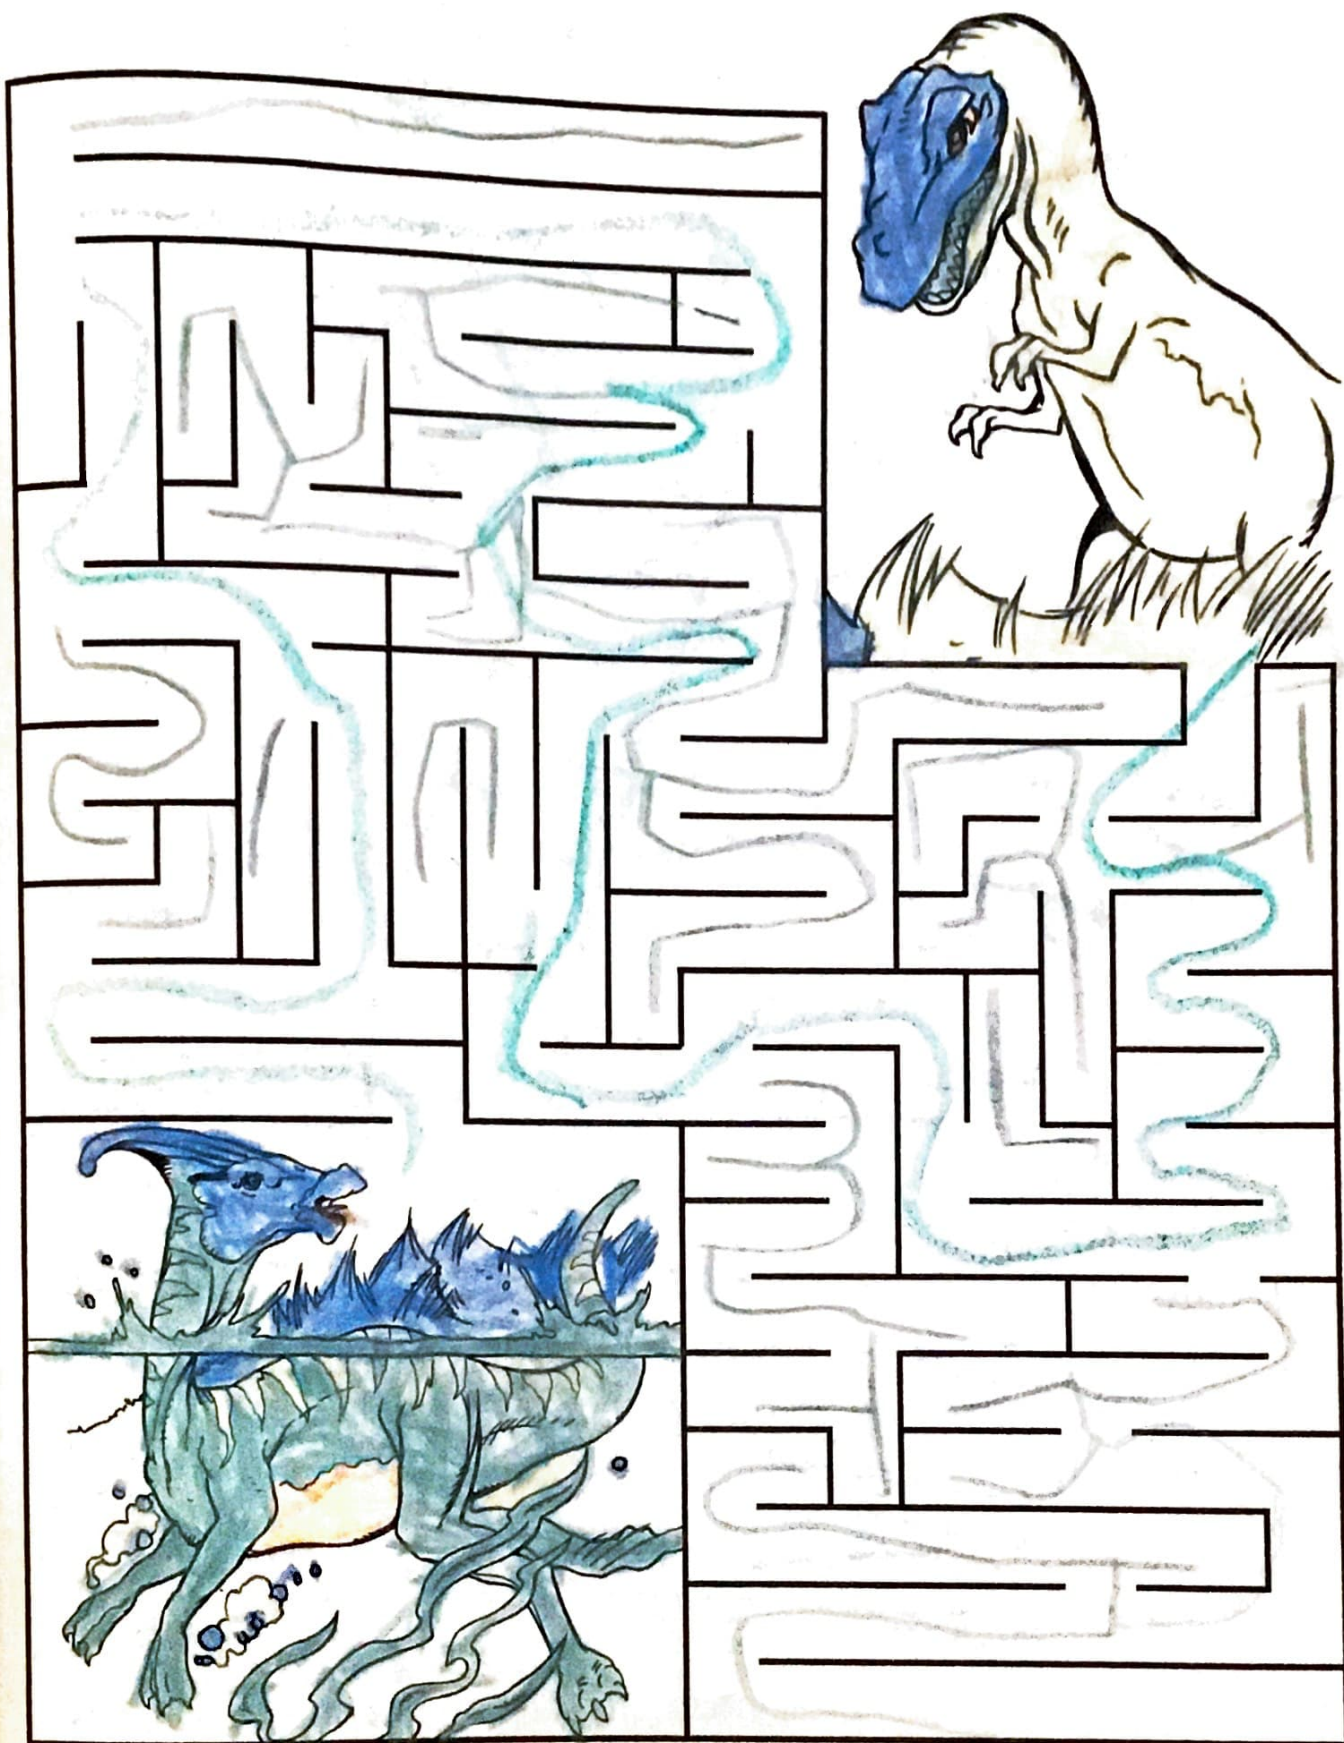

Triceratops looked like rhinos, but they were twice as long and weighed 2,000 pounds more.

Because it was so tall, Mamenchisaurus could walk across lakes.

Help the Tyrannosaurus Rex catch his prey.

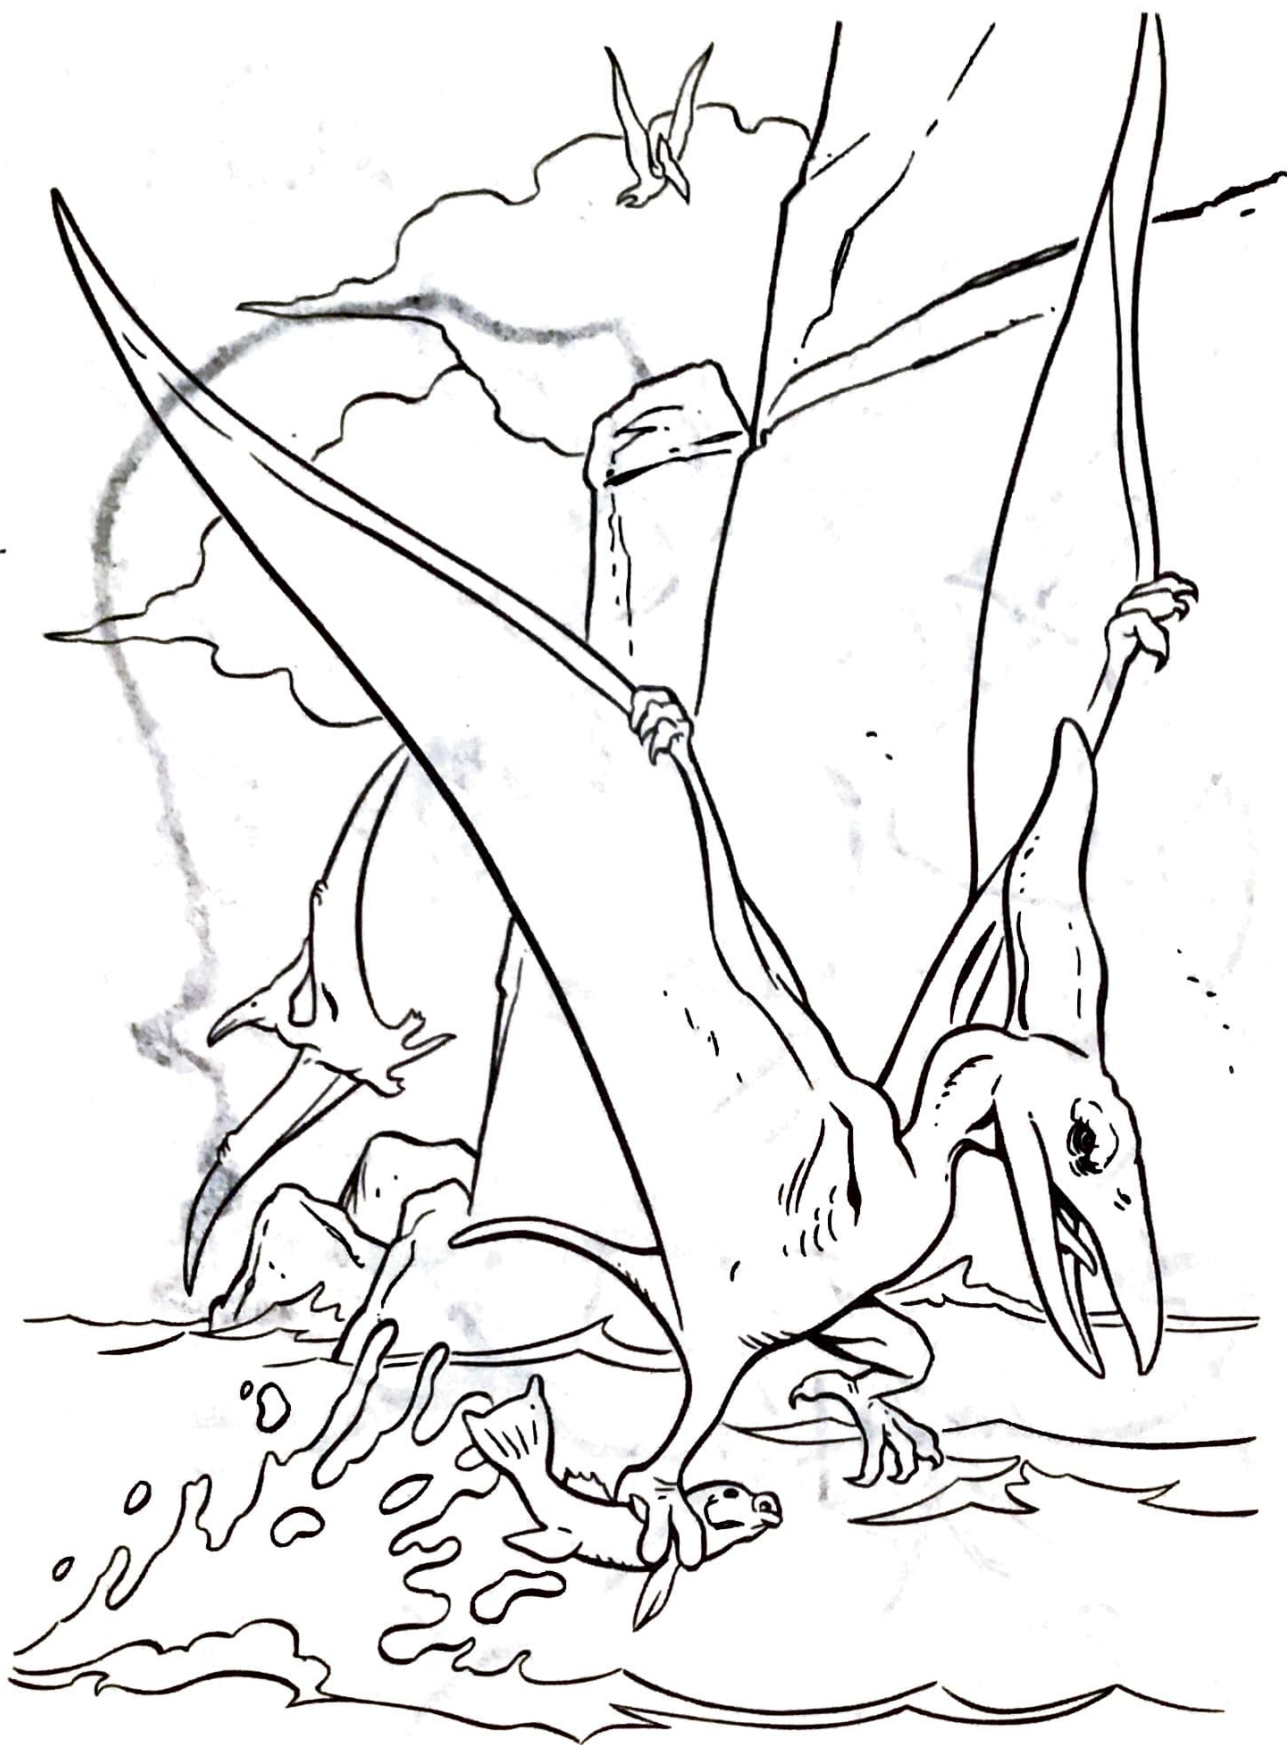

Compsognathus had razor-sharp teeth it used to attack.

Some scientists think Parasaurolophus could swim as fast as he could run.

Some Triceratops had horns three feet long!

Pteranodons ate fish they caught with their feet.

CONNECT the DOTS

Velociraptor wasn't very big for a dinosaur, but he was fast and strong.

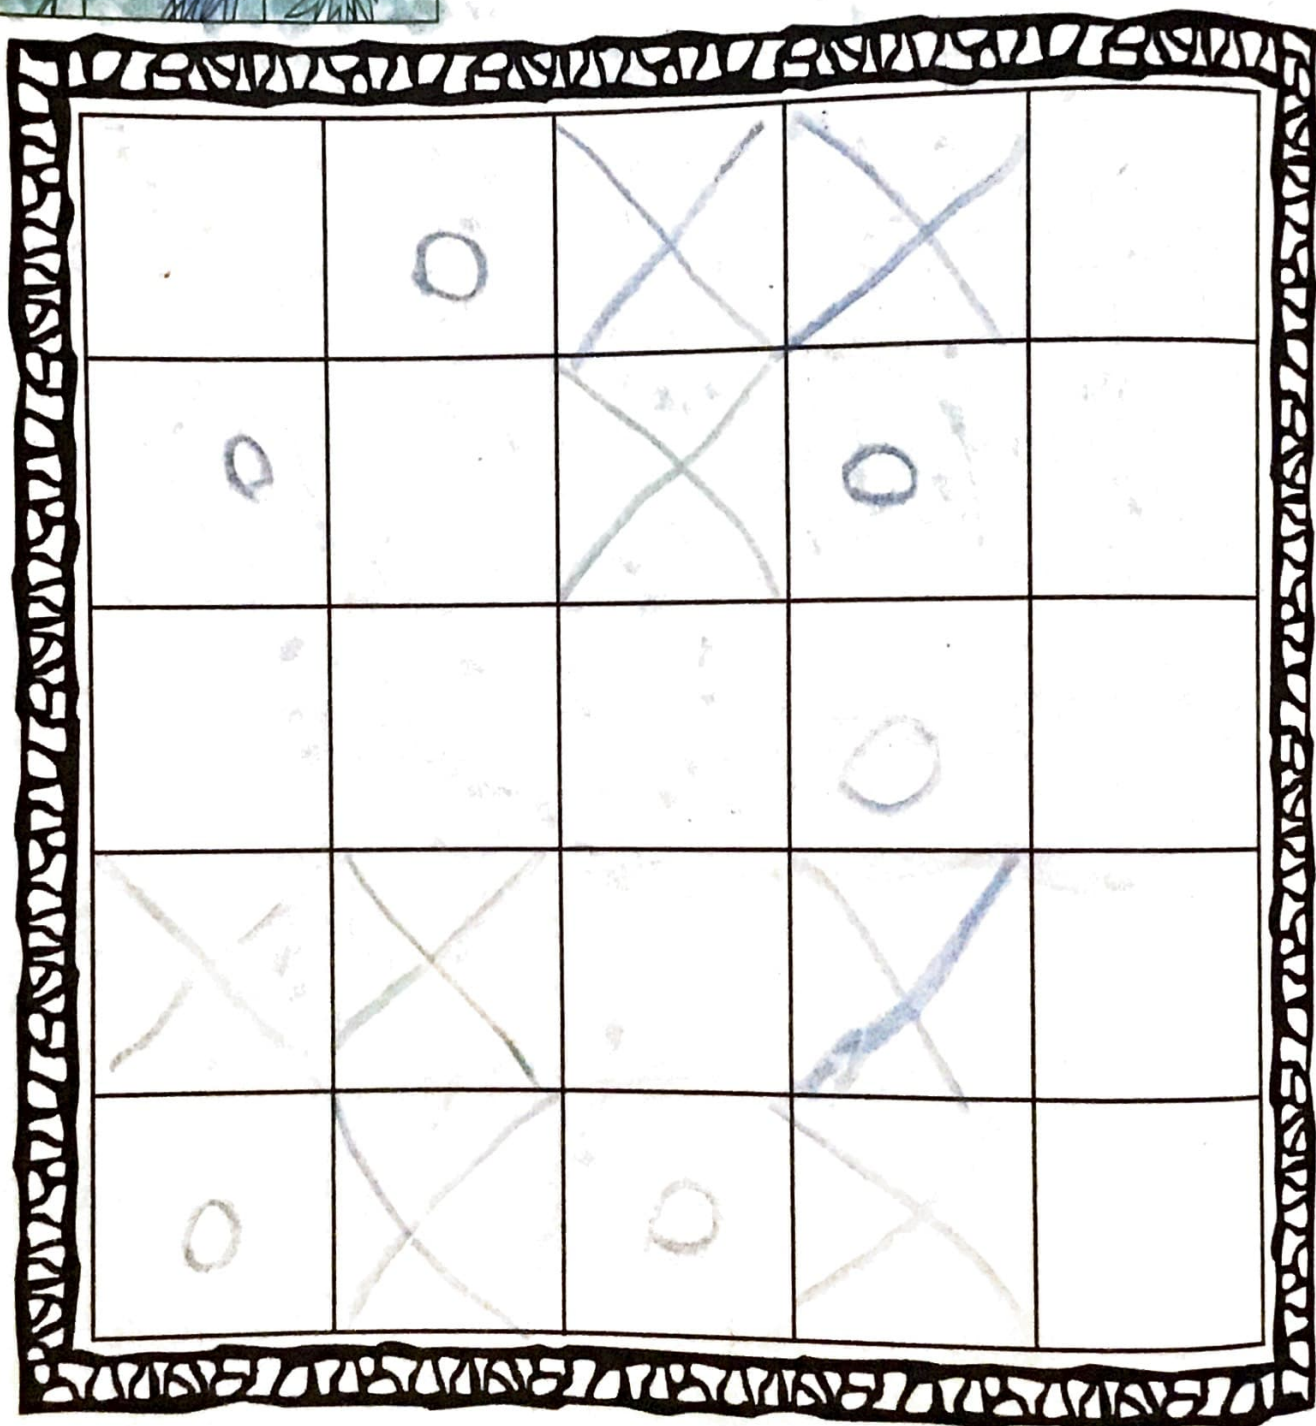

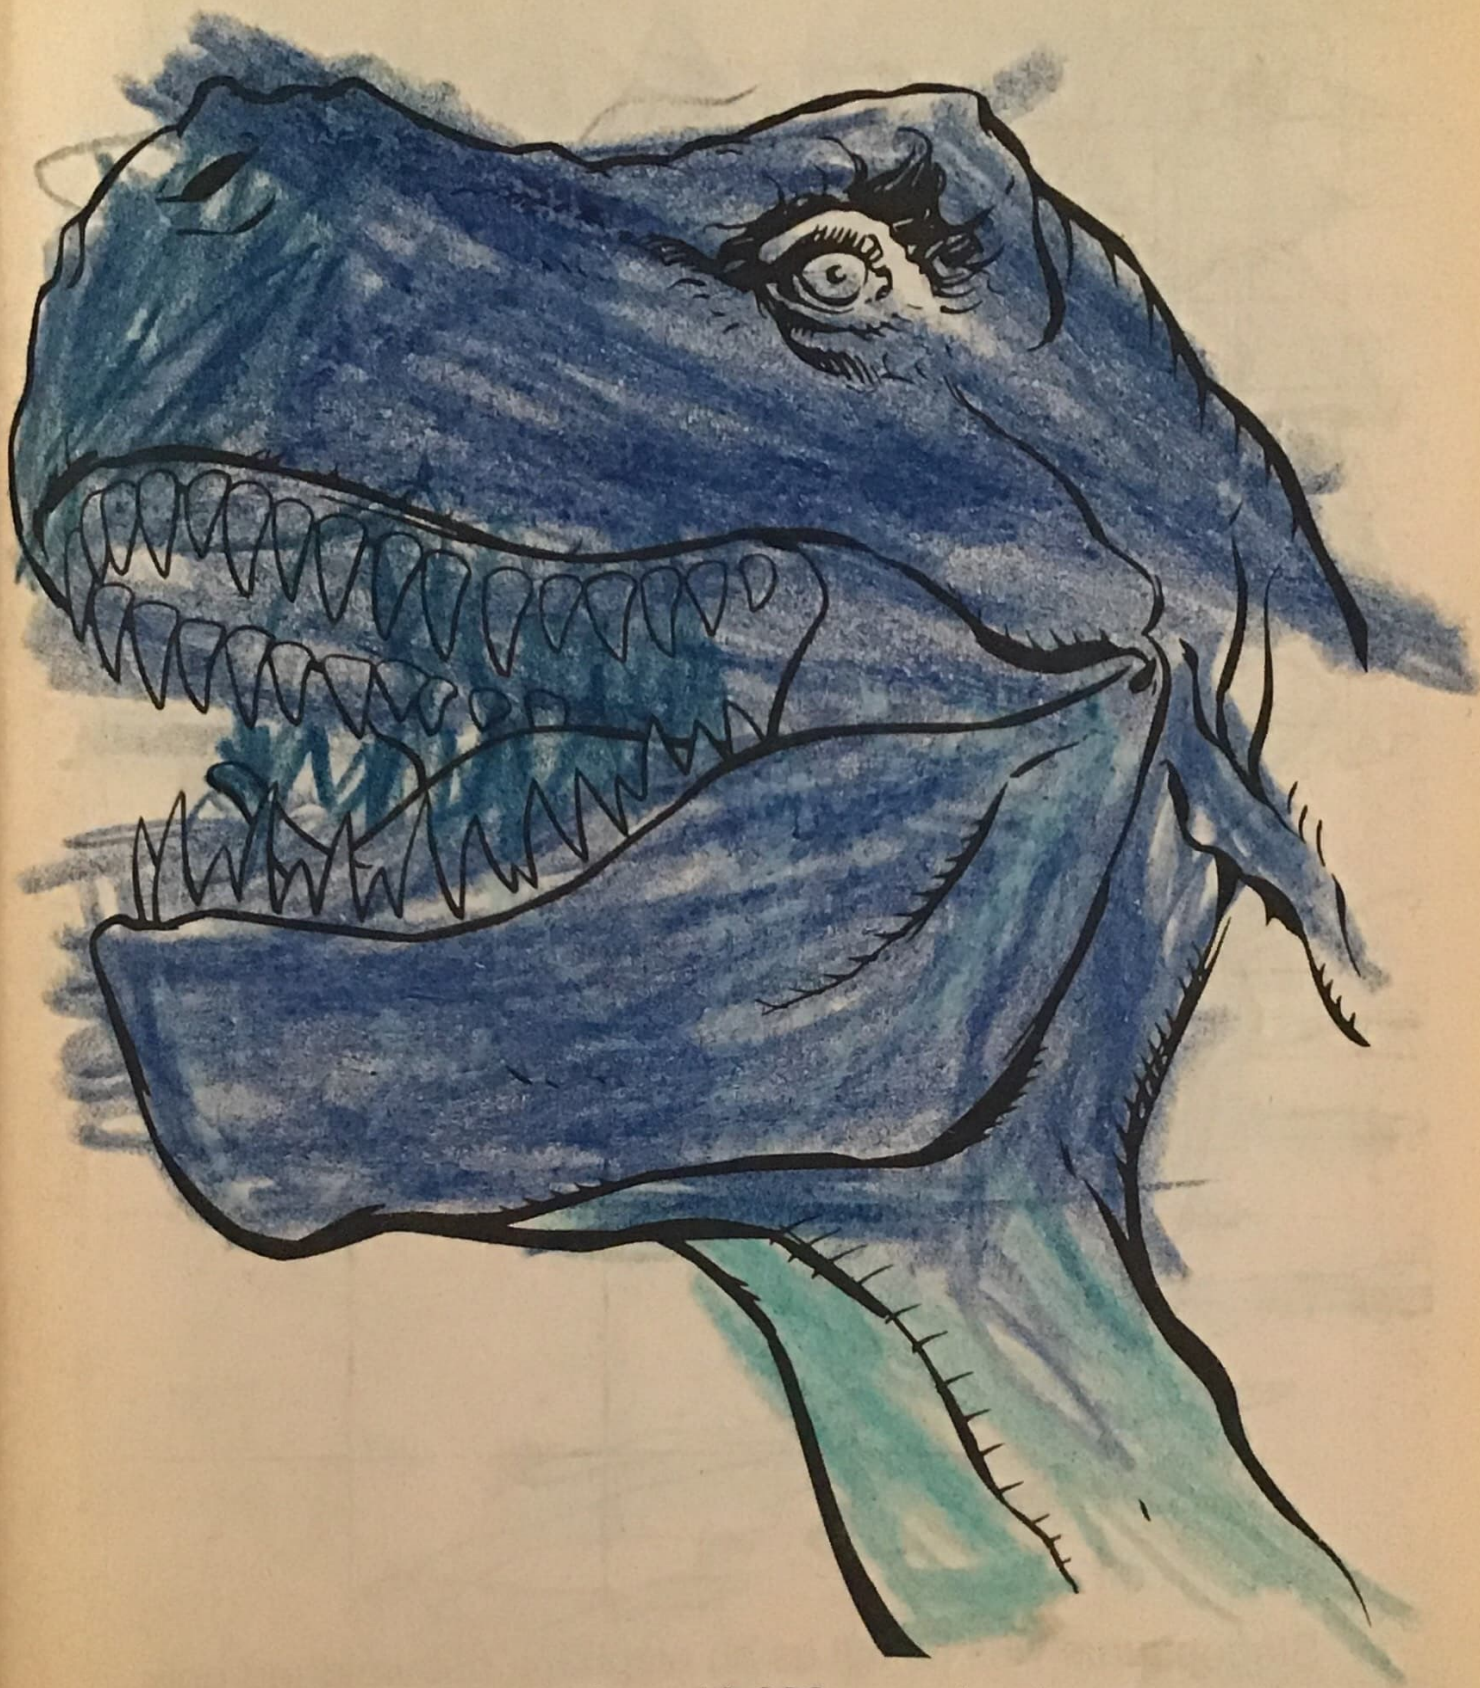

It looks like a herd of Triceratops just ran through here!

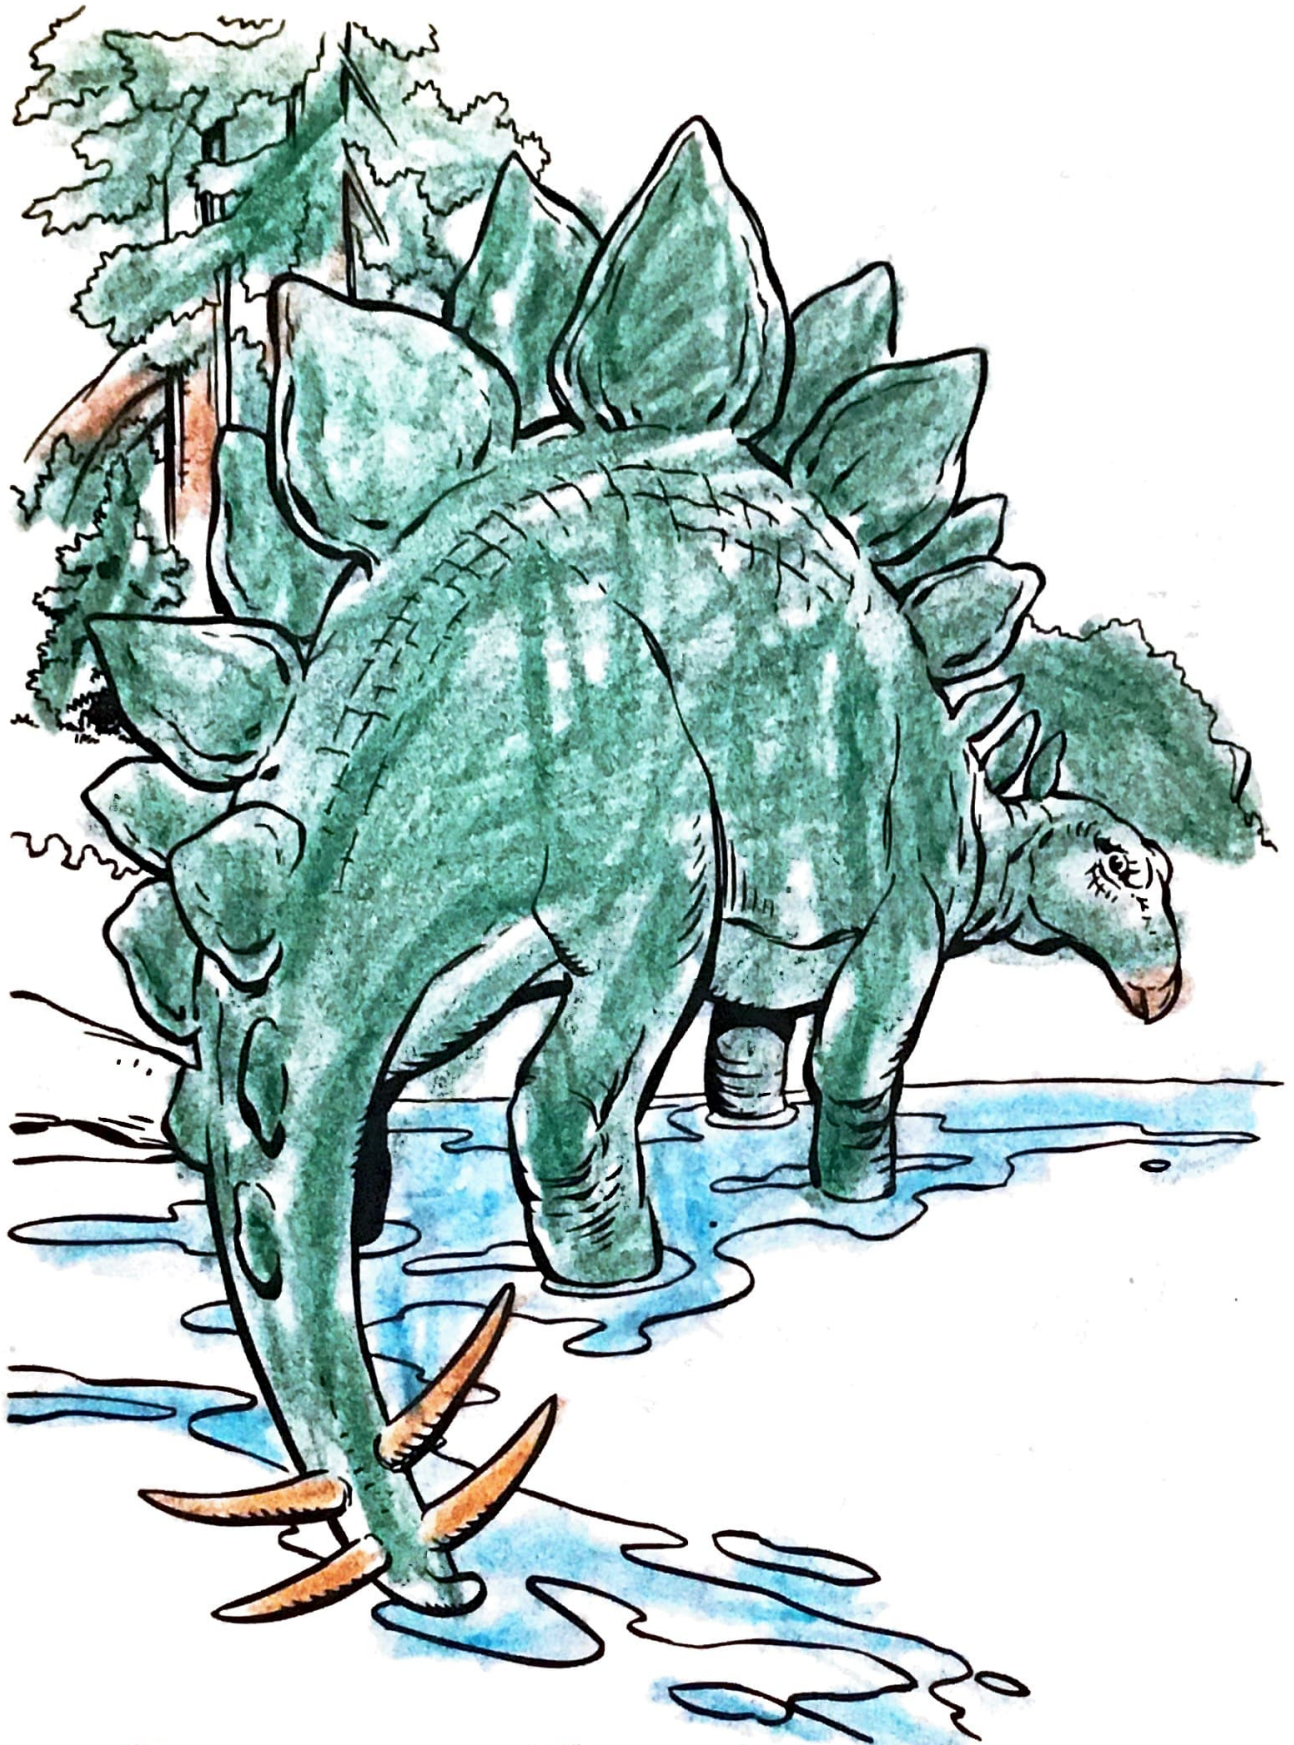

STEGOSAURUS

Draw the dinosaur using the grid!

Tyrannosaurus Rex could eat 10,000 pounds of meat a week!

Stegosaurus was as tall as an elephant, but weighed only half as much.

ANSWER: TRICERATOPS
HAD LARGE BRAINS AND
SHARP VISION.

With its wings spread, the Pteranodon was as long as a Triceratops.

The shield on the neck of the Triceratops was made of bone and used for protection.

Parasaurolophus may have used her crest to make humming noises.

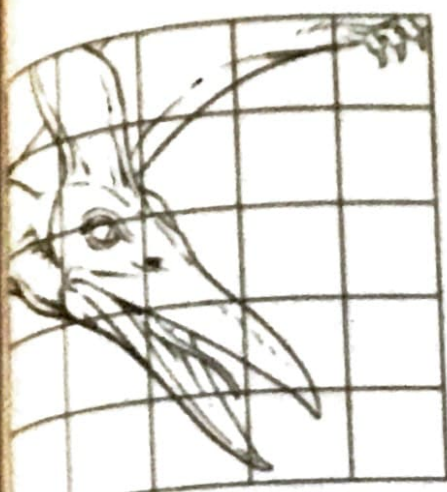

Finish the Picture

Be an artist!
Complete the weeds in
Mamenchisaurus' mouth.

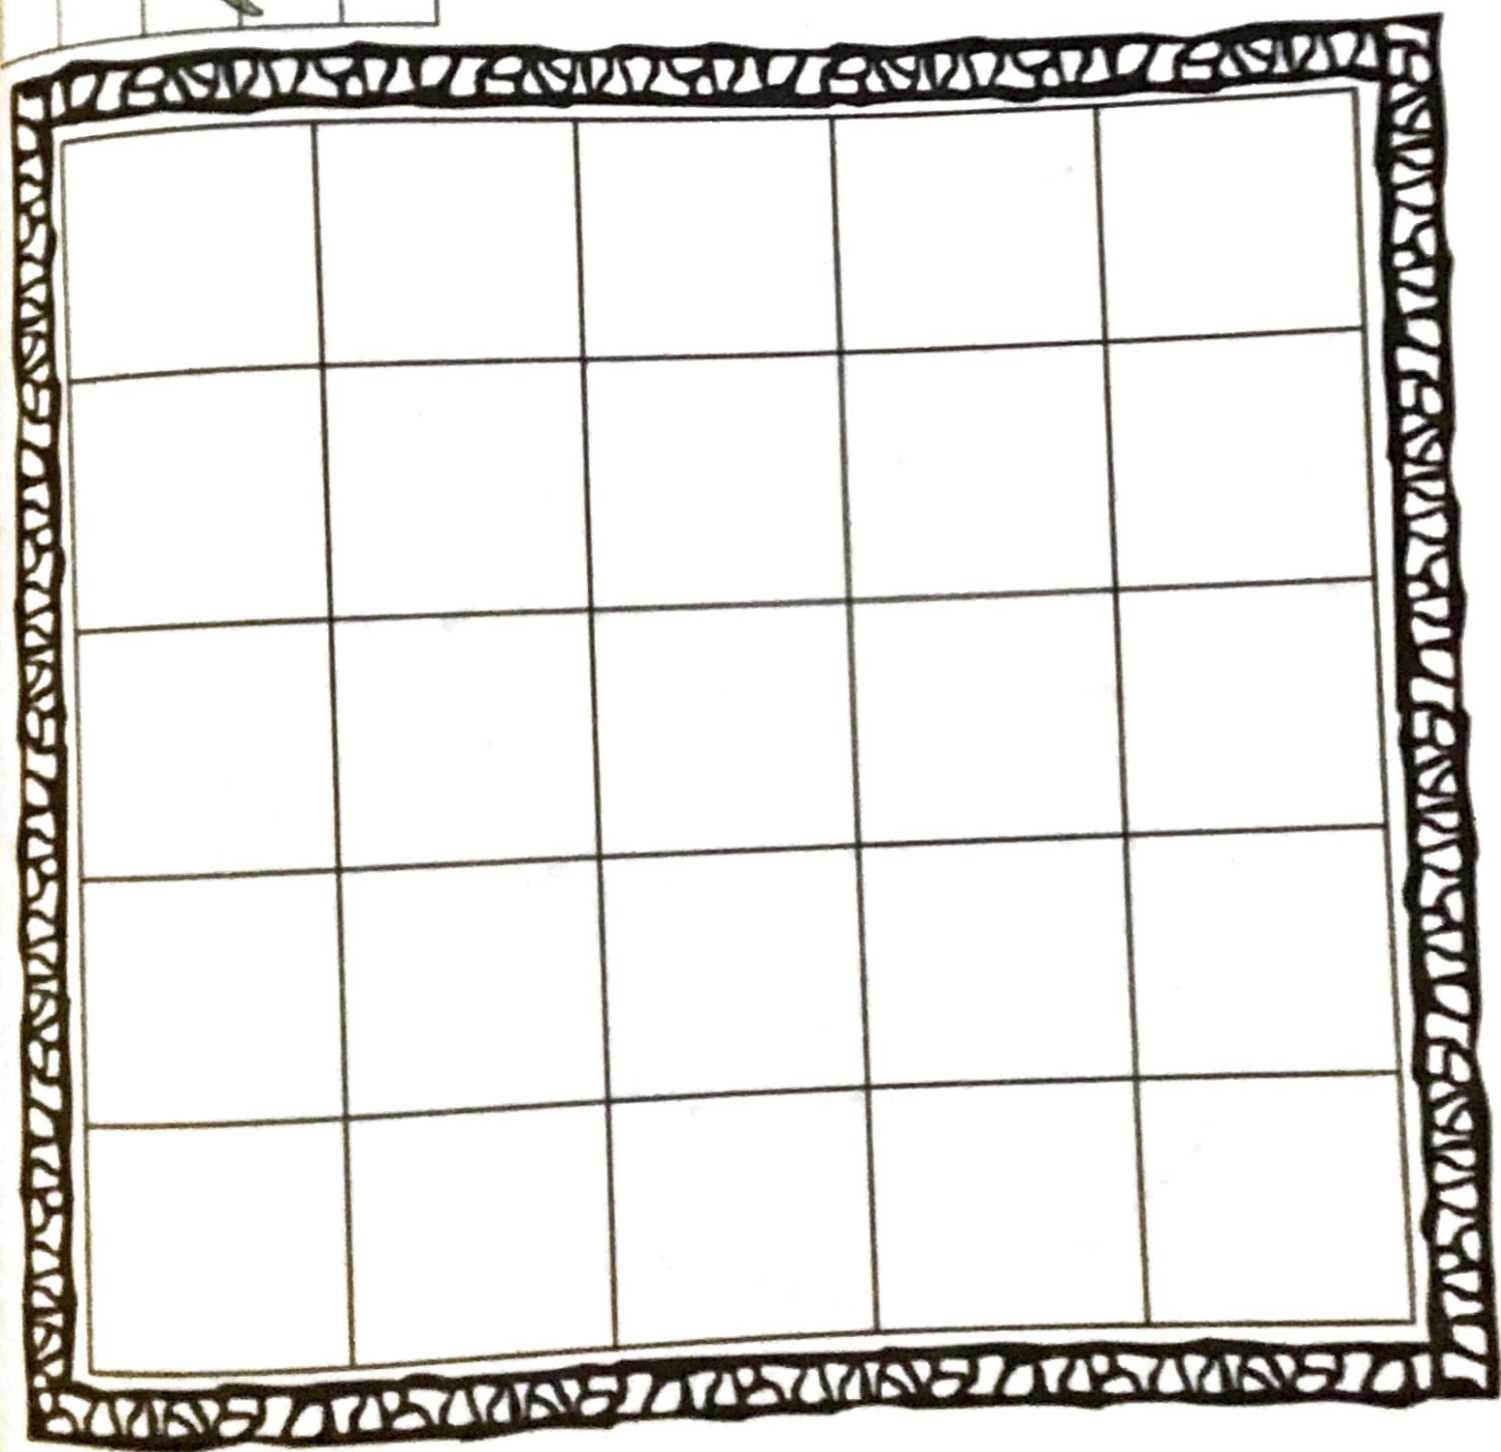

Mamenchisaurus used its tail like a whip to protect itself.

PTERANODON

Draw the dinosaur using the grid!

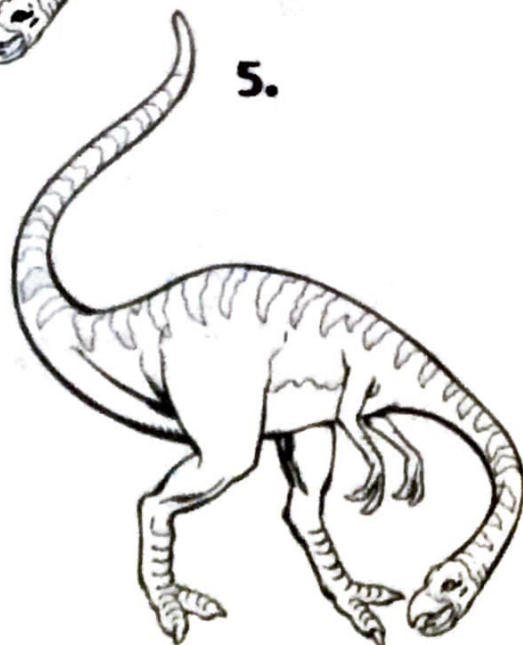

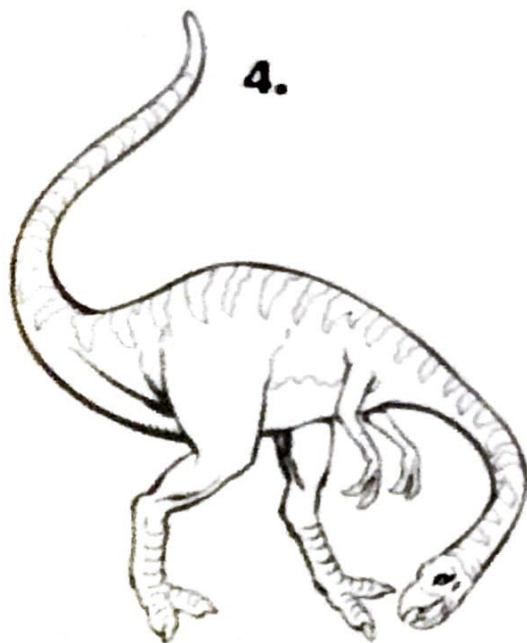

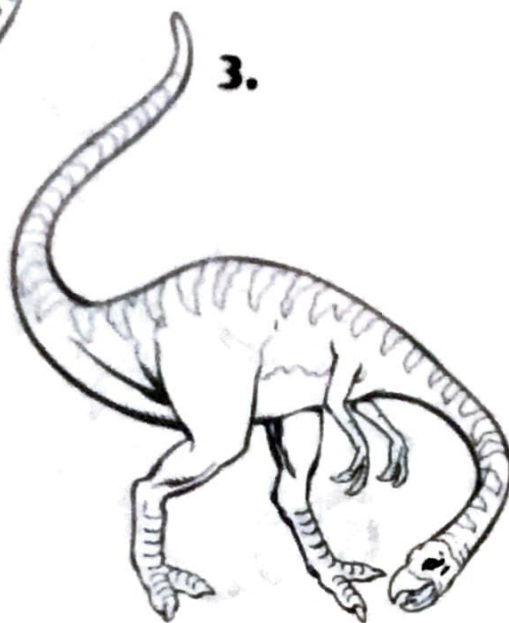

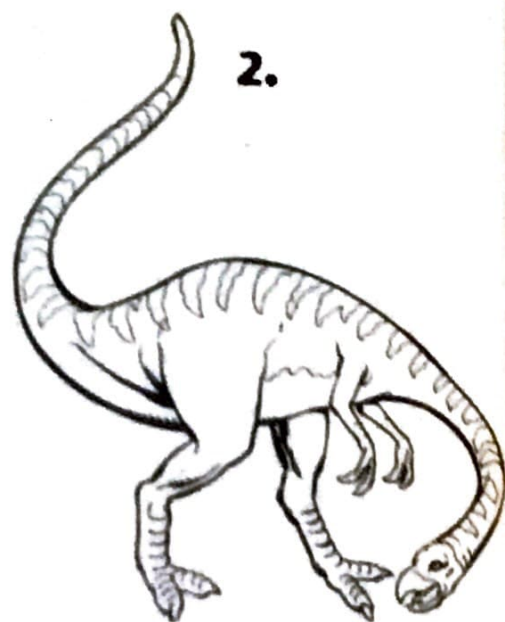

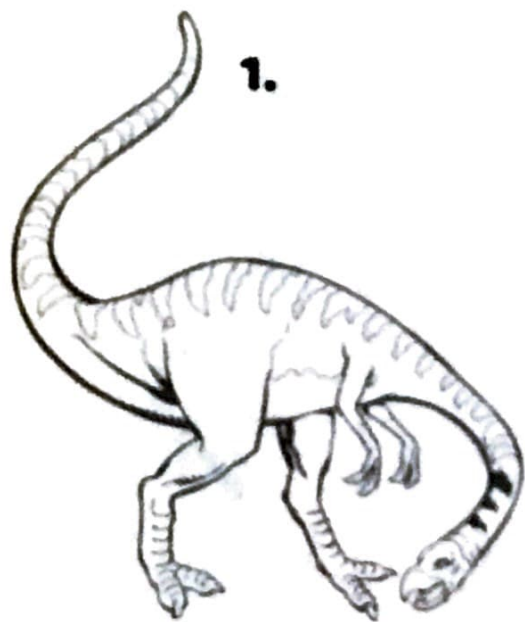

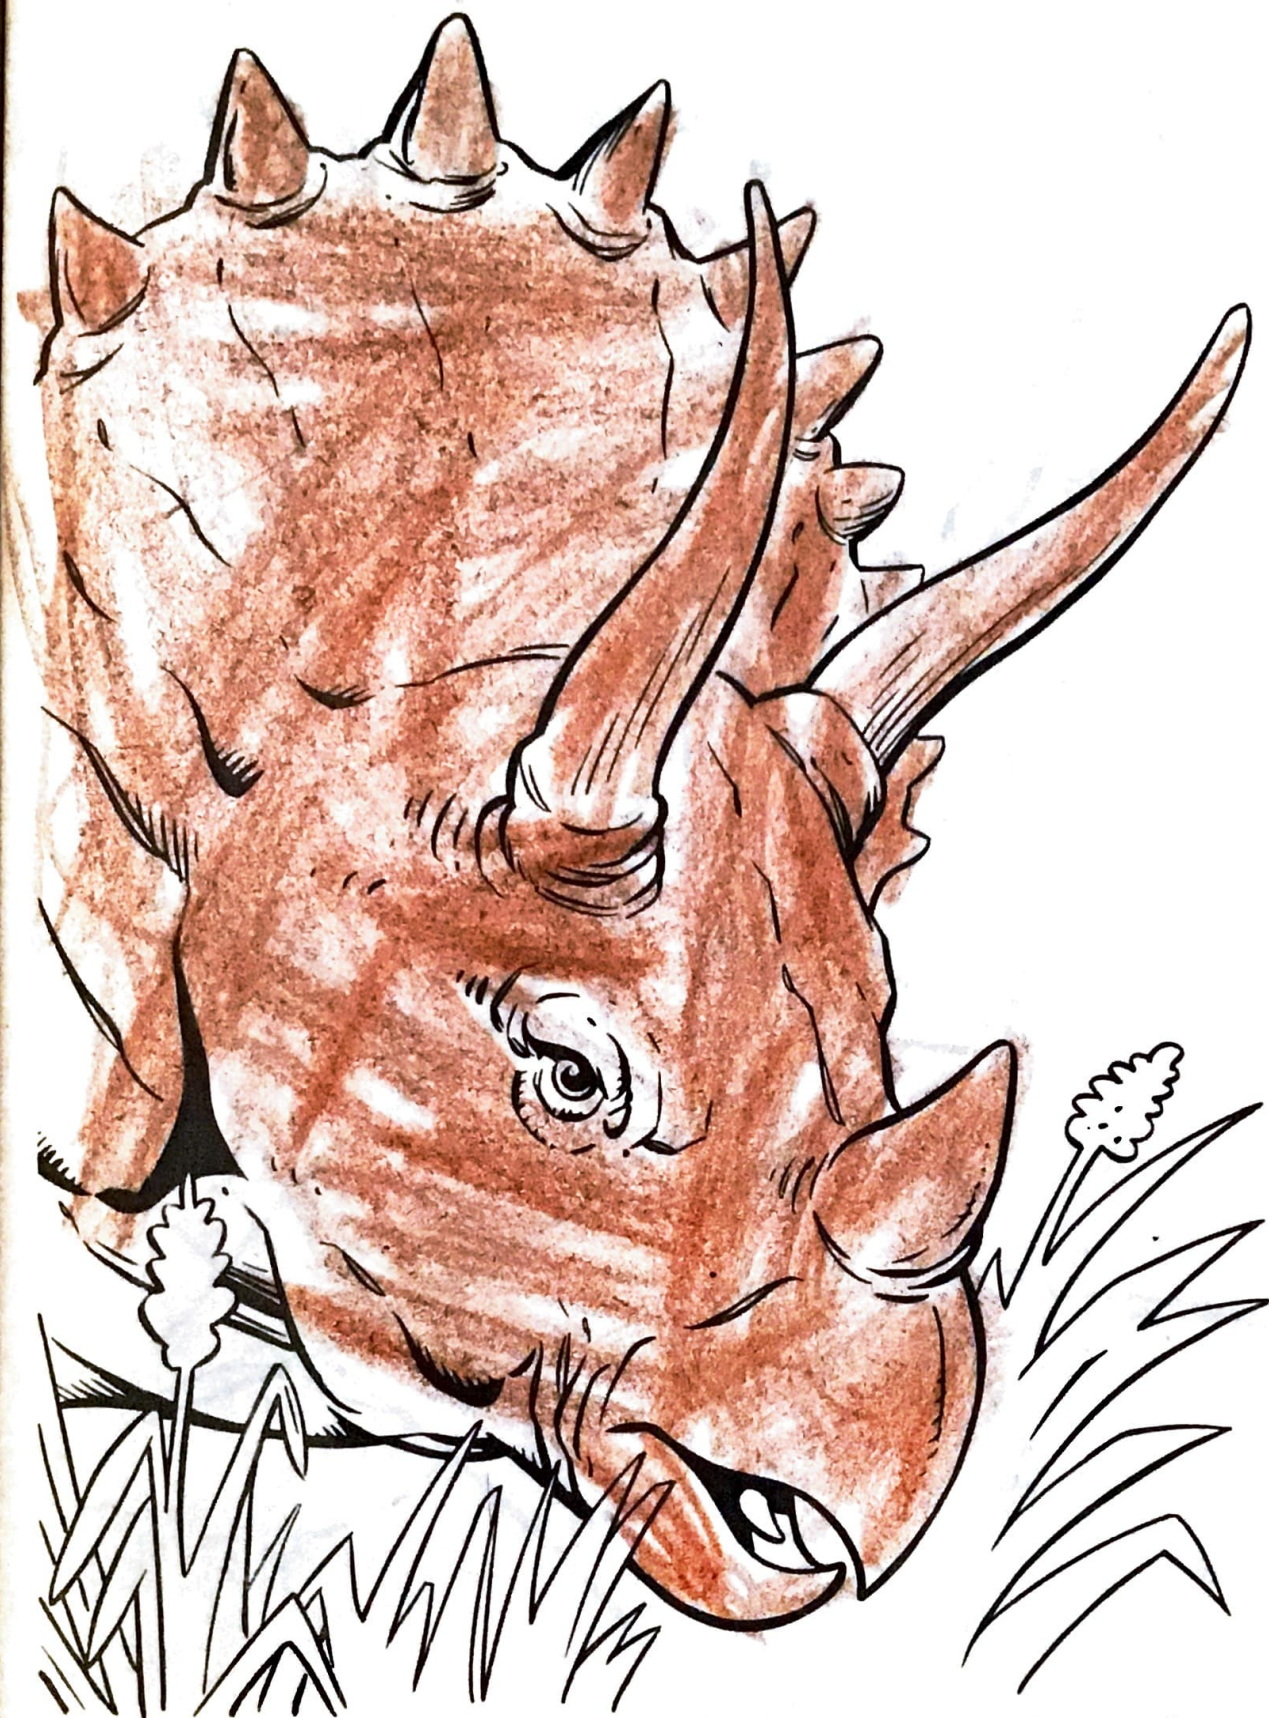

Velociraptor used his extra claw to open eggs or tear meat.

Tyrannosaurus Rex could live for one hundred years.

Which Gallimimus is different?

Triceratops may have knocked down trees to eat the juicy leaves on top.

The crest on the Pteranodon's head was made of hollow bone.

Secret Message

TILT

the top of the page toward the ground and view from the bottom to find the secret message.

ANSWER: PTERANODON

Pachycephalosaurus ate only plants.

How Many Words Can You Make Out Of

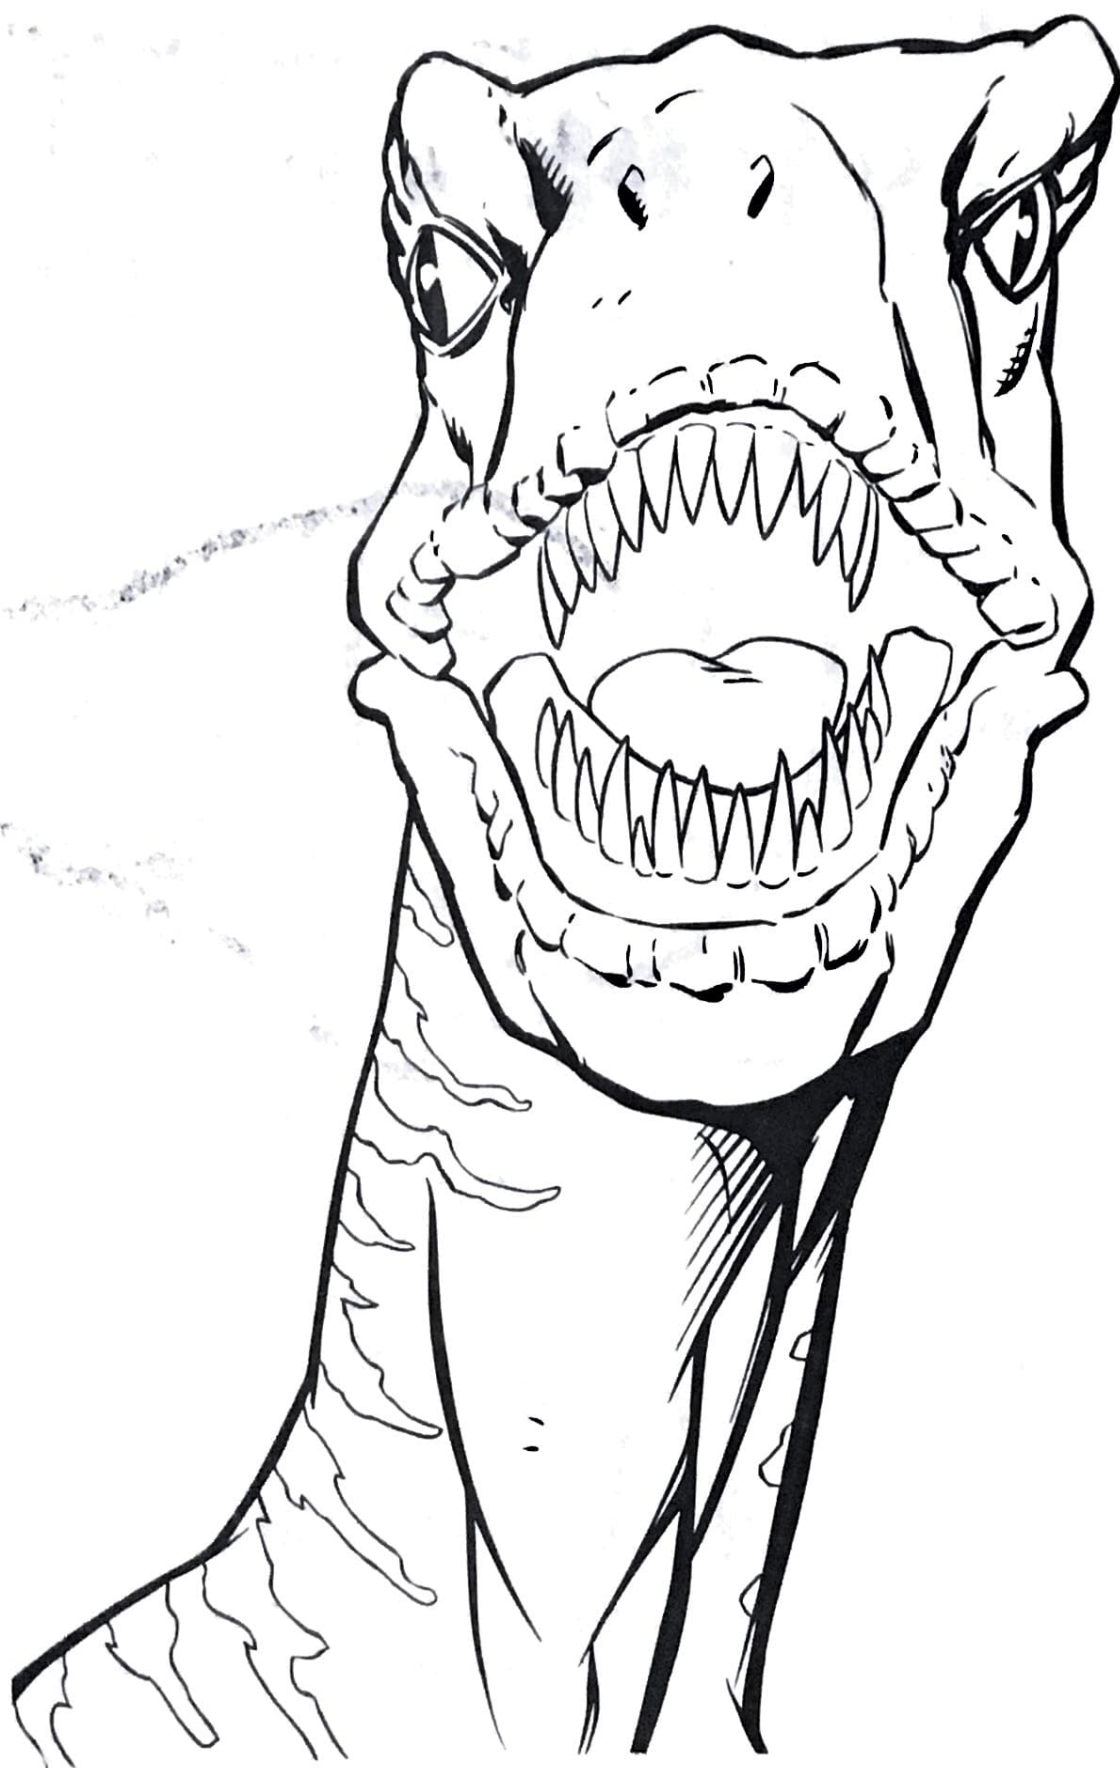

BABY TRICERATOPS?

CRAB

TAPE

Handwriting practice lines consisting of two columns of horizontal lines for writing.

The word dinosaur means "terrifying lizard."

CONNECT the DOTS

Scientists think the crests of dinosaurs were many different, bright colors.

SECRET CODE

Use the code to figure out the message.

ANSWER: TYRANNOSAURUS REX
 COULD KILL WITH ONE BITE!

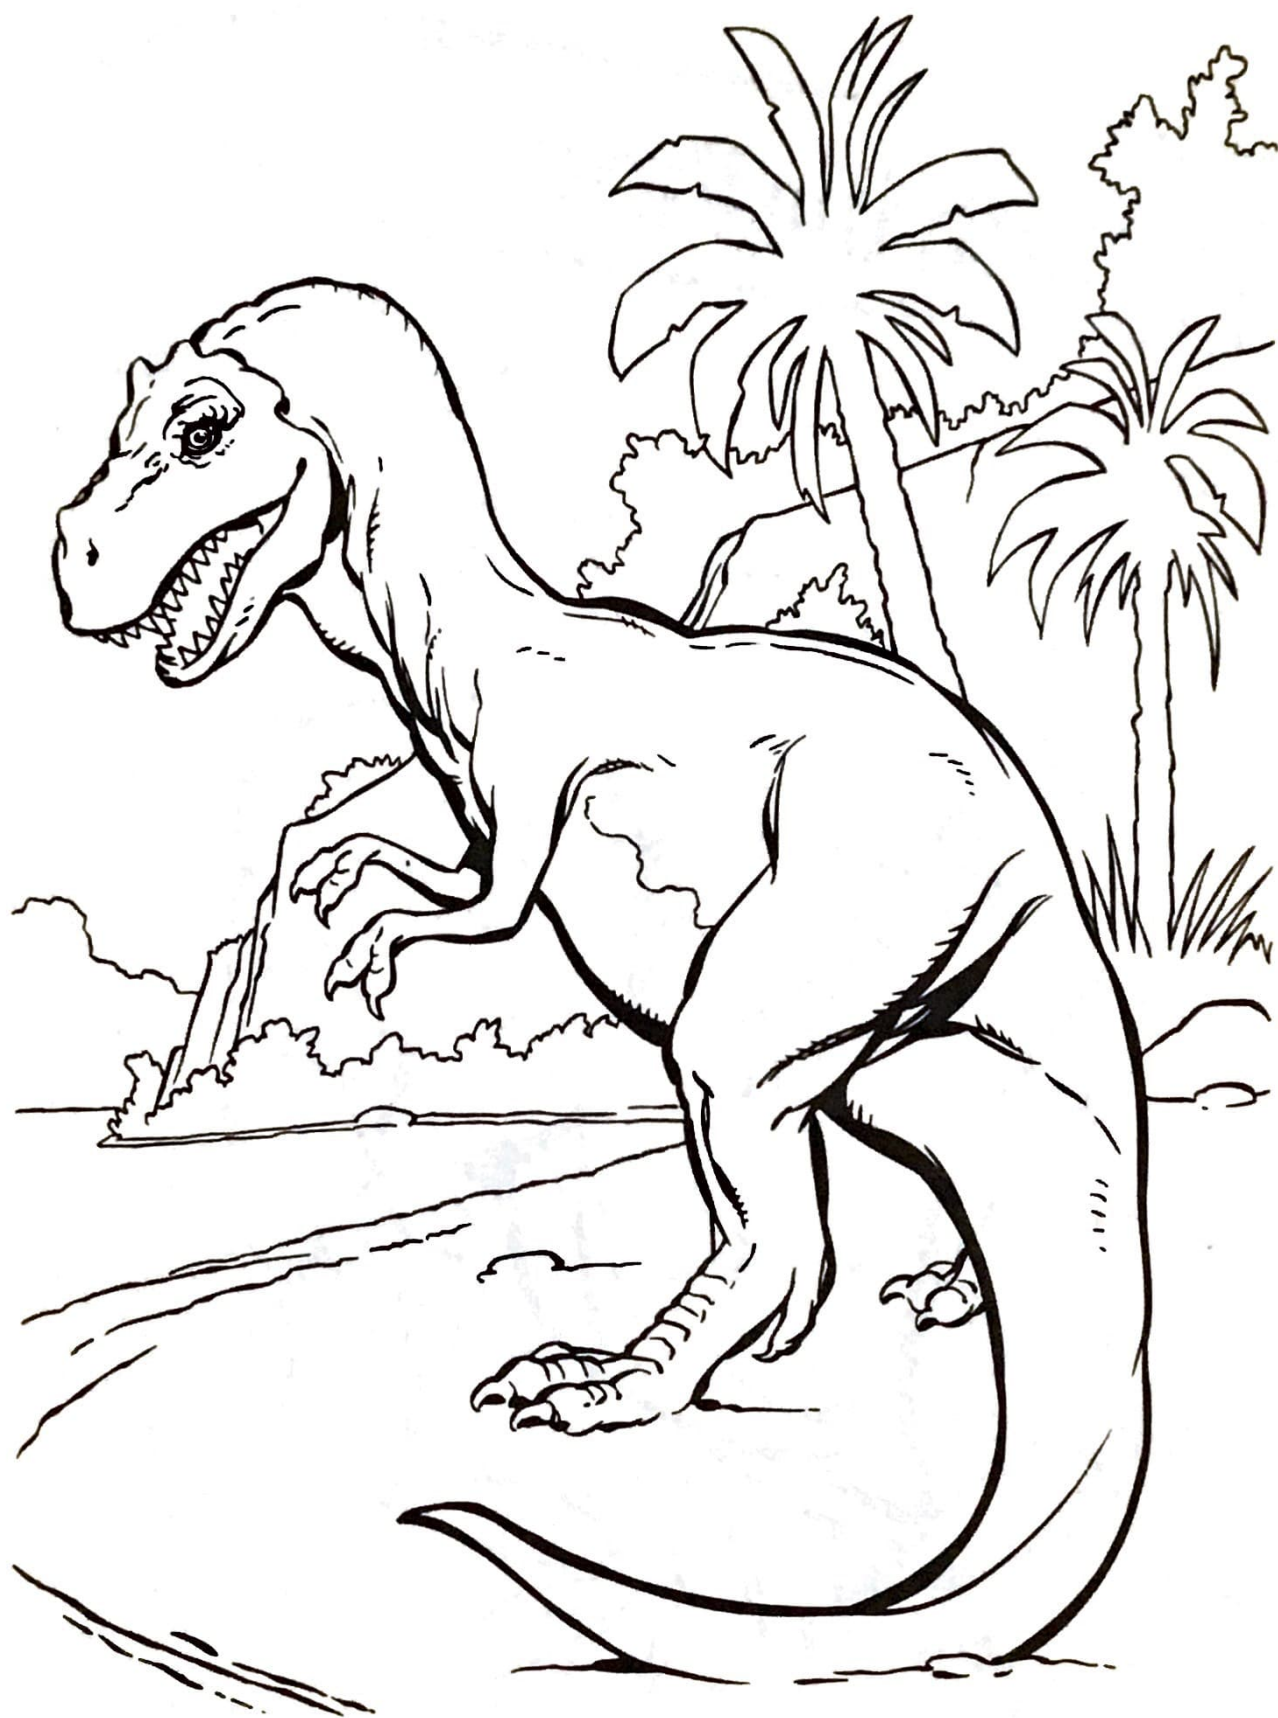

Mamenchisaurus' neck was three times as long as a giraffe's.

Finish the Picture

Be an artist!
Complete Stegosaurus' scales.

Tyrannosaurus Rex was as tall as a house!

Which Velociraptor is different?

1.

2.

3.

4.

5.

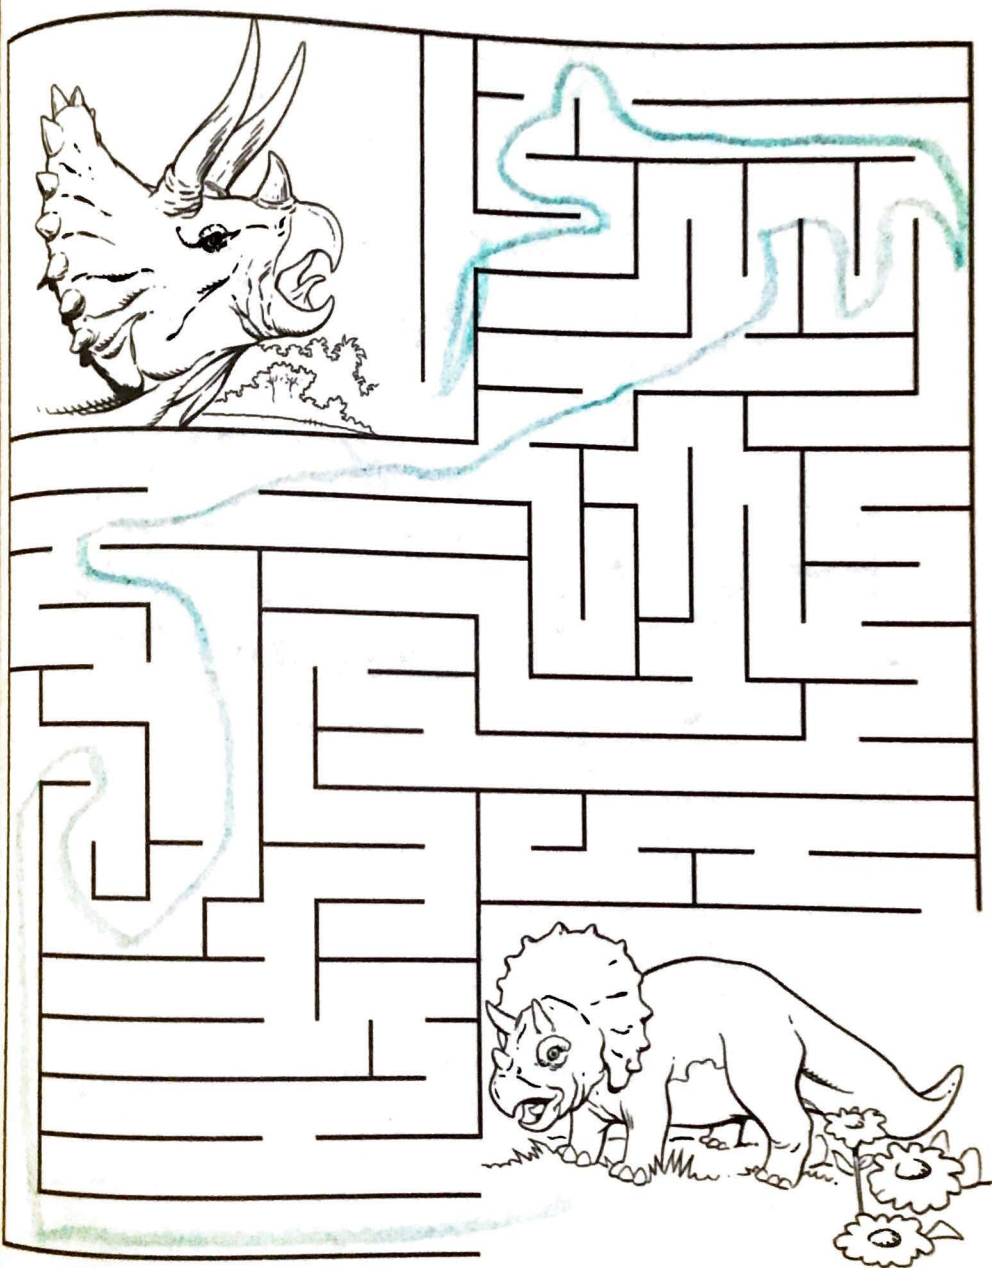

Answer 4.

Pachycephalosaurus had head-butting contests to determine the leaders of their herd.

Help the mother Triceratops find her baby.

Velociraptor was a small dinosaur, only six feet tall.

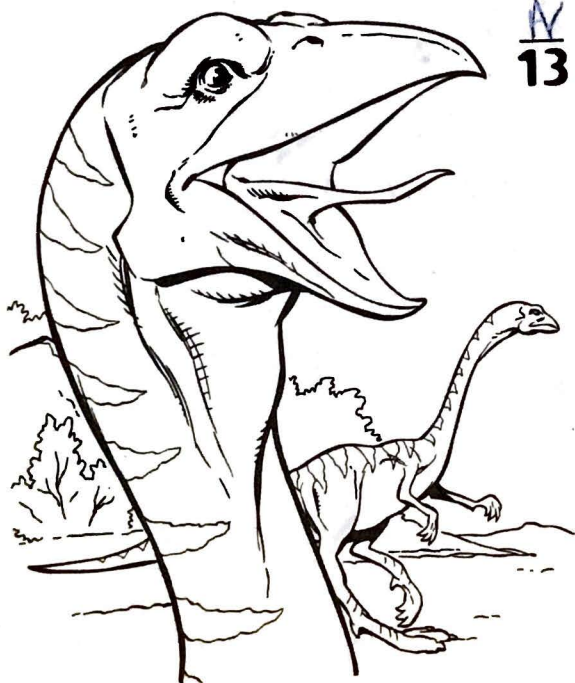

Parasaurolophus lived in the United States 70 million years ago.

 13 12 7 22 22 7 19

ANSWER: GALLIMIMUS
HAD NO TEETH.

Birds are distant relatives of Pteranodons.

Finish the Picture

Be an artist!
Complete Pachycephalosaurus' eyes.

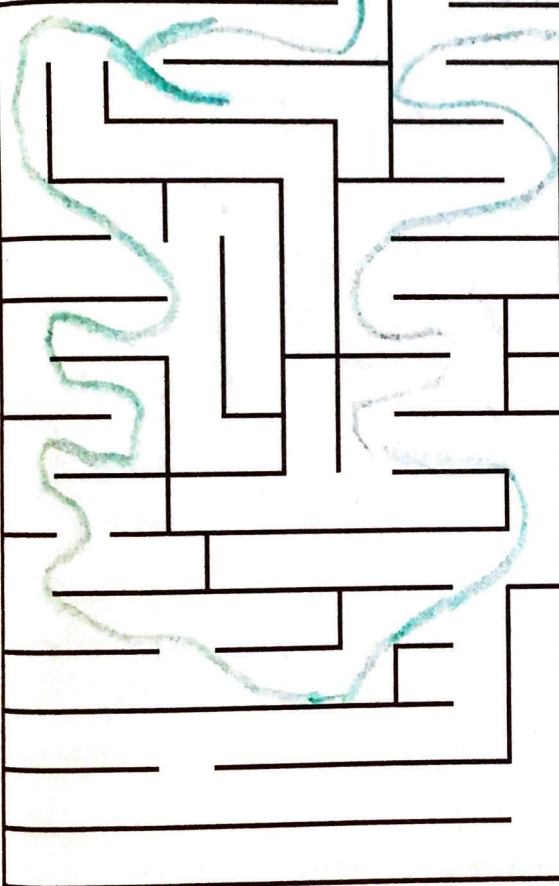

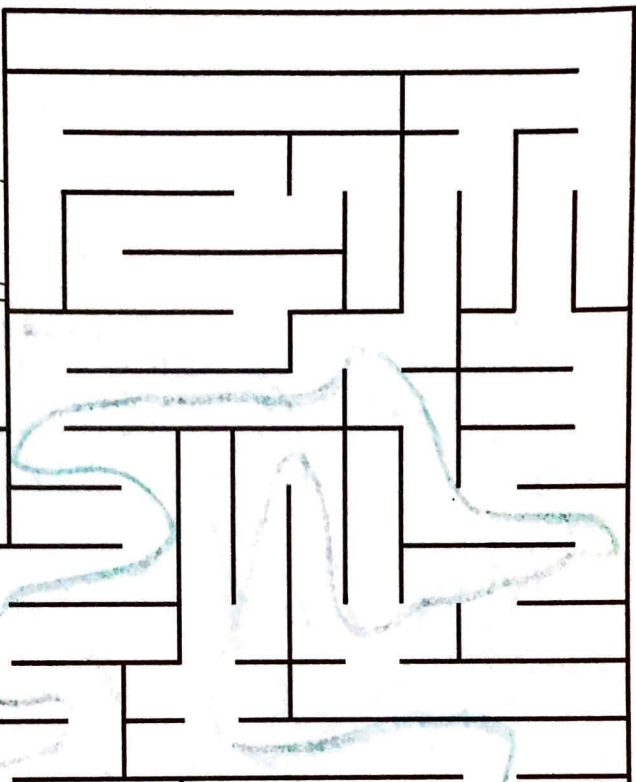

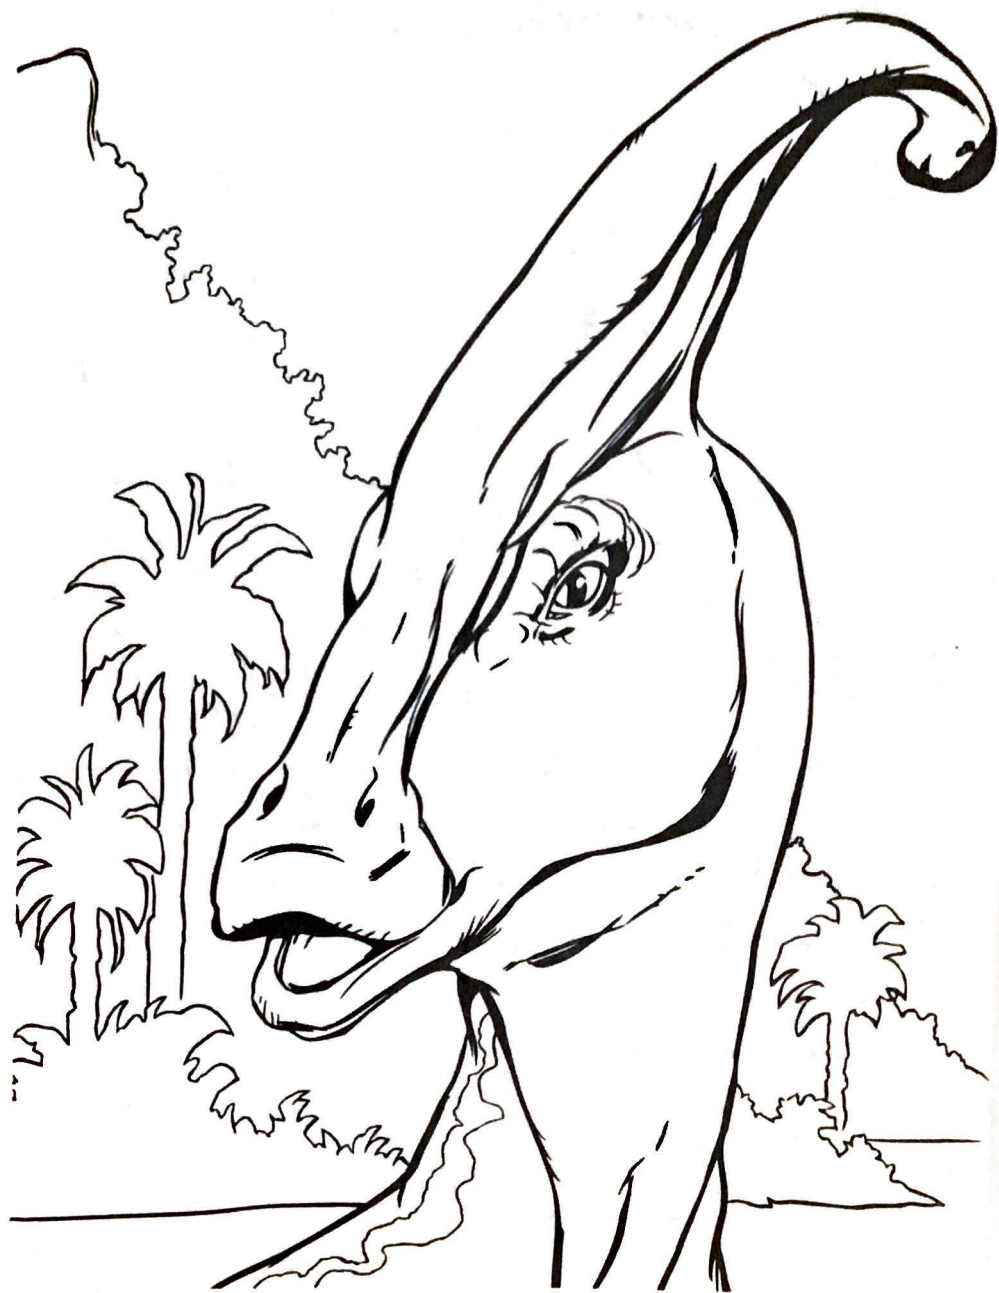

Tyrannosaurus Rex could run 25 miles per hour.

Velociraptors ate only meat.

Help the Mamenchisaurus find its friends.

Parasaurolophus had teeth in her beak to chew bark.

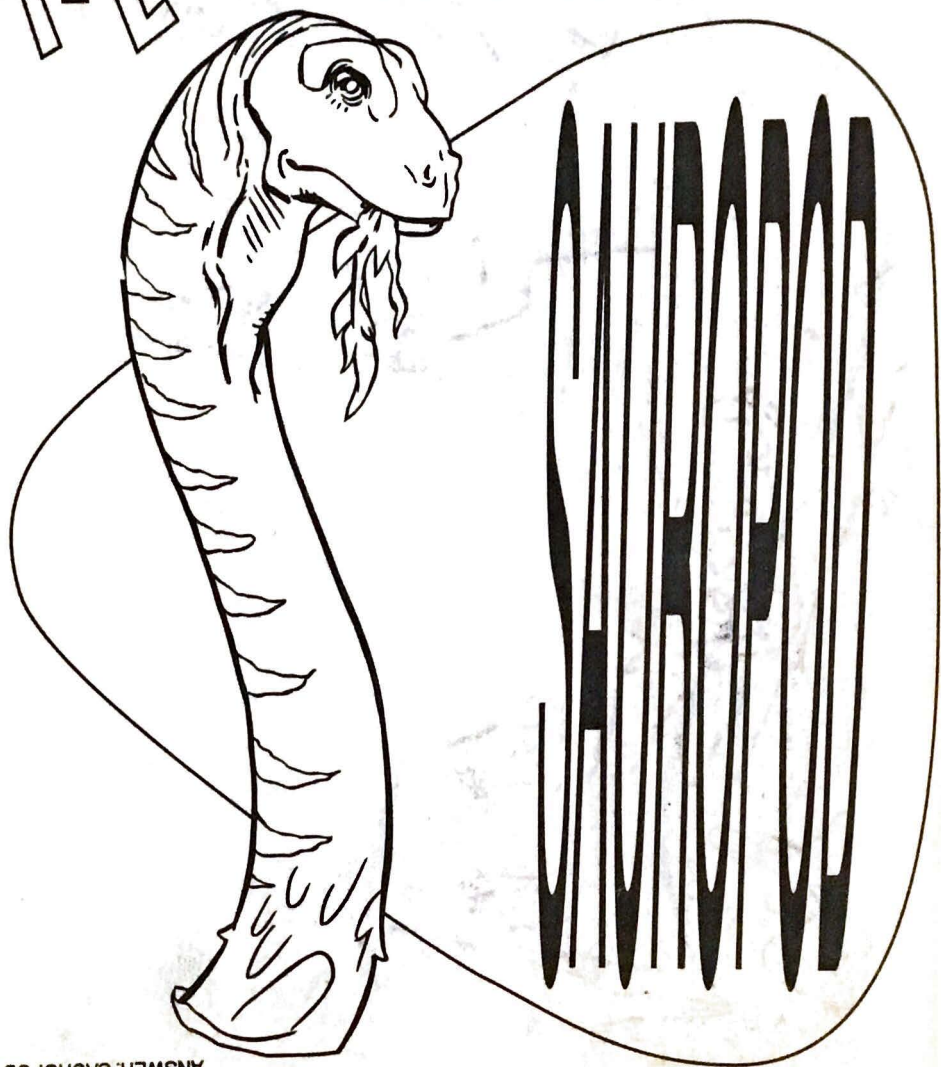

A scientist who studies dinosaurs is a paleontologist.

Secret Message

TILT

the top of the page toward the ground and view from the bottom to find the secret message.

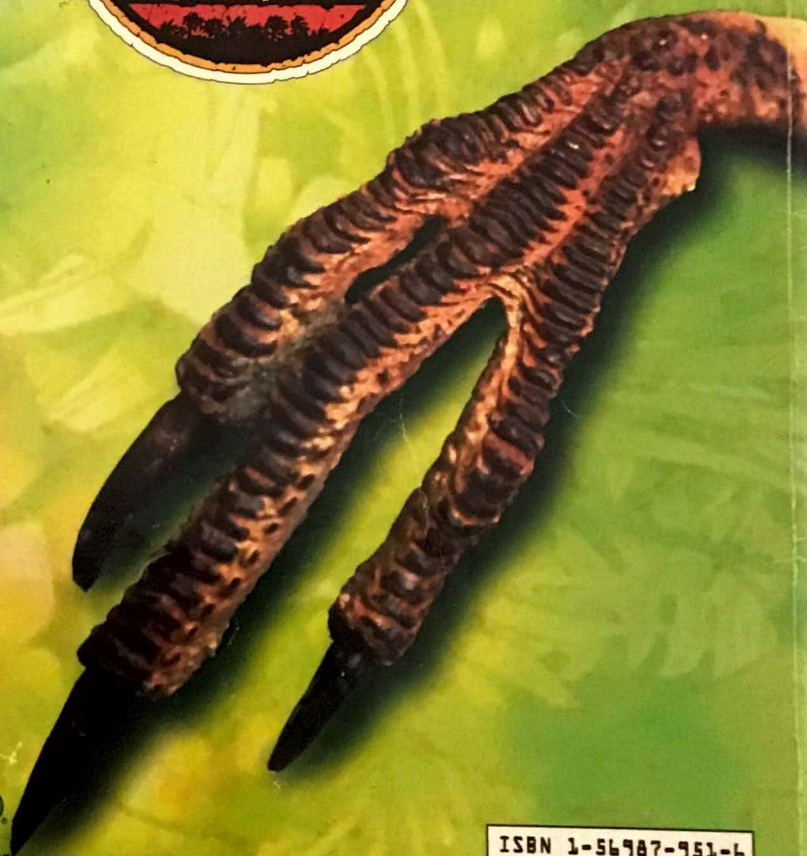

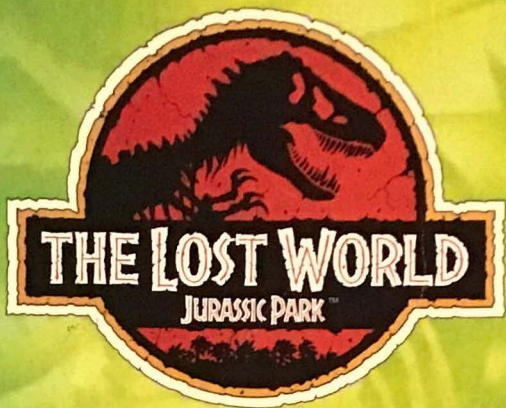

ANSWER: SAUROPOD

By hunting in packs, Velociraptors could kill dinosaurs much larger than themselves.

"I'd better run if I don't want to be T-Rex's lunch!"
